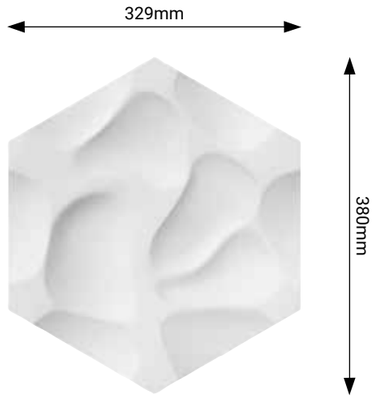
STEP 3:
Easy to Install

Coral 3D Wow Element

Each individual CORAL wall tile is uniform and can be combined to create unique feature pieces. Designer Mac Stopa combines the definitive lines of geometry with the smooth irregular curves and shadow seen in water and coral. The CORAL wall tiles enable interiors to become a complete personal expression, with bespoke decor not found anywhere else. There are numerous possibilities for placing the CORAL wall tiles.



Thickness: 25mm
Circumference: Ø:380mm
Material: Polyurethane

Material:
High-density, yellow, rigid polyurethane foam.

Colour:
Matt white.

Finishes Paint:
The factory-primed wall tiles must be coated with a finishing paint. Water-based emulsion paints, acrylic or PU-based emulsion paints and alkyd resin paints are suitable.

Finishes Wrapping:
It is possible to wrap with Architectural Design Films.

Dimensions

Panel Thickness	3D Tile 25mm
Surface Of A Single Panel	0.12m^2
8 Panels	0.96m^2
Weight Of A Single Panel	100g
Number Of Panels Per Single Tube Of Adhesive	20pcs

Please read the wall tiles data sheet and fixing instructions fully before installation.

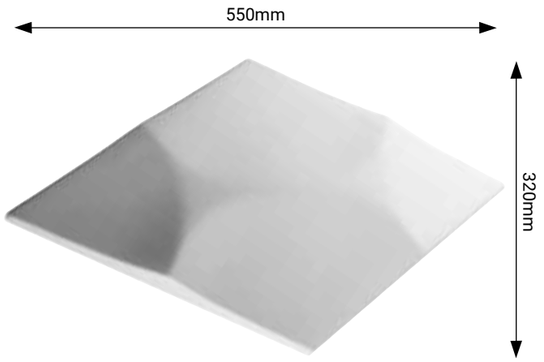
SURFACE WOW

Ray 3D Wow Element

Designer Mac Stopa has combined the fluidity of nature with geometric shapes. The RAY wall tiles won the Red Dot Design Award. These modern wall tiles enhance both homes and professional spaces by adding a creative and personal element. Creatively decorate walls by placing the RAY tiles in different directions to produce an eye-catching and personalised interior design.



Please read the wall tiles data sheet and fixing instructions fully before installation.

Material:
High-density, yellow, rigid polyurethane foam.

Colour:
Matt white.

Finishes Paint:
The factory-primed wall tiles must be coated with a finishing paint. Water-based emulsion paints, acrylic or PU-based emulsion paints and alkyd resin paints are suitable.

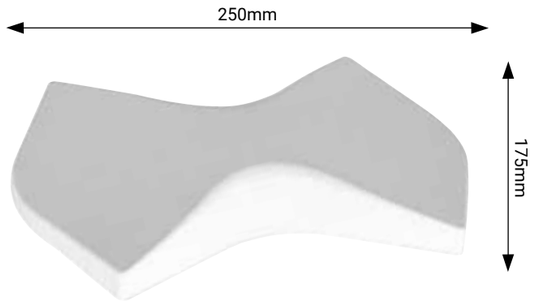
Finishes Wrapping:
It is possible to wrap with Architectural Design Films.

Dimensions

Panel Thickness	3D Tile 33mm
Tile Size	H: 320mm x W: 550mm
Surface Of A Single Panel	0.08m^2
12 Panels	0.96m^2
Weight Of A Single Panel	60g
Number Of Panels Per Single-Tube Of Adhesive	40pcs

Wing 3D Wow Element

For a flight towards a more graphical freedom.
Designer Mac Stopa utilises shape and shadow to replicate patterns seen in nature. Geometric shapes ensure the WING wall tiles are a versatile feature piece. The WING wall tile facilitates the creation of bespoke designs. There are endless possible combinations for placing WING wall tiles, allowing complete personal expression within the finished result.



Please read the wall tiles data sheet and fixing instructions fully before installation.

Material:

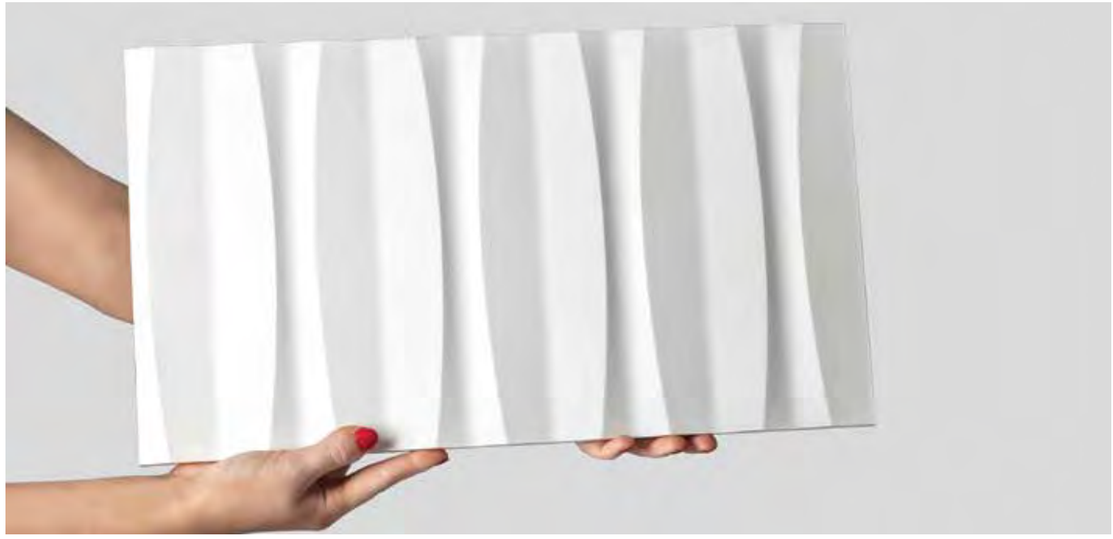
Sandglass



The gentle lines of these panels complement each other, creating a never ending subtle pattern. The original structure of sandglass can easily be brought out by the use of side light (when arranged vertically) or upper light when arranged horizontally. The panels are arranged in a unique way - alternately in a natural and inverted position. In this way, convex shapes merge with concave ones, creating a geometric mosaic.
