A unique pop of brightness

Turn colours and pattern on their heads with this dichroic FILM, and create a design system that will blow people away. The film lets light in and captures it to form reflections of different colours. The reflections vary from blue to purple to yellow, depending on your angle or view.

SURFACE WOW

Silver Etched Glass

Polymeric Glass Decoration Film

Silver etched utilises a semi-opaque, matt, calendered PVC that is suitable for use on a wide variety of clean, dry surfaces. The film has been formulated to promote medium-term, exterior durability, whilst the liner has been engineered to deliver outstanding lay flat properties. It also incorporates a solvent based adhesive with bubble-free technology to facilitate application, making it a more user-friendly option than the ‘standard’ product.

This window film is specifically designed to be cut on computerised sign-making equipment, with its unique liner promoting enhanced weeding performance.

Mirror Effect Anti-Scratch Film

Film	Pattern Colour	Size
PVC	Silver, Gold	1220MM

Mirror both sides

Brilliant, extremely scratch resistant Mirror effect film available in silver and gold. A special feature of this polyester film is that the mirror effect is identical on both sides, providing stunning double-sided reflections on transparent surfaces.

Veilish

Stylish privacy film for glass covering and window decoration.

Veilish

Go beyond traditional window coverings

Explore our warm, natural fabrics to dress up your windows. Veilish can act as a self-adhesive net curtain and is the ideal non-pvc alternative to traditional architectural & decorative window films and foils.

- 100% polyester fabric
- Self-adhesive
- Semi-transparent
- UV-resistant
- Cooling effect
- Creates privacy

VELISH : The Facts

What is Veilish?

Veilish is a natural self-adhesive semi-transparent polyester fabric for covering windows. While reducing sunlight and temperature in the room, it will provide indoor privacy without blocking the view outdoors. Veilish is easy to install, and can be cut in any shape whether by hand or a digitally controlled cutter. Being compatible with several digital print technologies it will fit any style or design. Veilish is available in the following colours:

- White
- Rose Grey
- Black

Physical properties

Material:

- 100% woven polyester fabric
- Water based acrylic adhesive
- Polyester liner

Weight:

- Fabric weight 95 g/m2
- Liner weight 105 g/m2
- Total weight 200 g/m2

Thickness:

- Thickness fabric 245 µ
- Thickness liner 105 µ
- Total thickness 350 µ

Dimensions:

- Media width 1370 mm
- Media length 10m, 15m, 30m

Application areas

Veilish can be mounted on smooth and flat surfaces such as glass, polished stainless steel and lacquered surfaces.

Adhesive

- The product is self-adhesive, no additional adhesive is required.

Limitation of use

- Outdoor
- Wet conditions

It is not recommended to use the product in wet conditions or a high risk for condensation, it may lose its adhesive properties. Veilish has a repositionable adhesive which means that during mounting it can be repositioned. Once mounted, do not remove the product. The adhesive will lose its strength, it may not be possible to re-apply the products.
