Unique 3-Panel Solution

The Vistafolia® solution uses a unique three-panel system to create a totally natural look without repetition or visible joins.

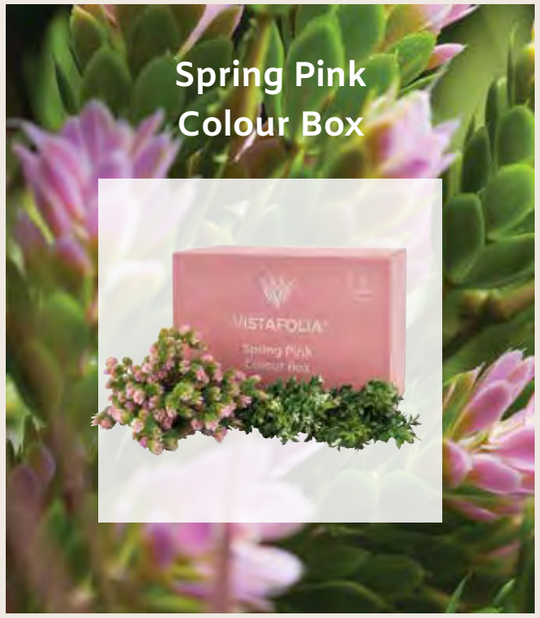
The future of artificial green walls is here

Vistafolia®'s lush artificial green wall system panels have been designed to create a beautiful green environment with a realistic effect even in the most inhospitable planting locations.

Add colour and texture

Simply slot the plants in to add a burst of vibrant colours and extra depth to your vistafolia panels and to give you the look and finish you desire.

Cascading greens blended with stunning blue lavender and blossoms.



A timeless combination of elegant pink flowers and earthy green plants.

Lovely mix of summer blossoms and grasses dotted with delicate white flowers

Bold red-flowering Pieris accompanied by lush green foliage.

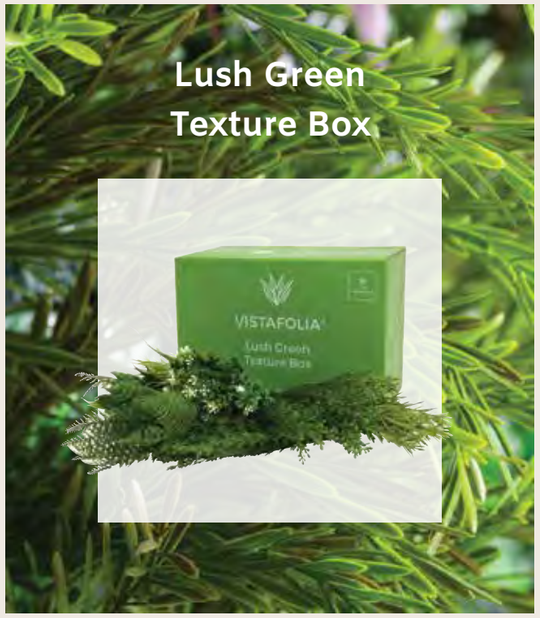
Your wall your way

Each box of additional foilage contains enough plants for around 10 panels and gives you the tools you need to create a truly bespoke finish.



A tumble of wild grasses and earthy ferns merged with green-fused and delicate flowers.

A selection of large 18" grasses, shades of green and burgundy.

Trailing ivy for a trailing finish that can be used to add volume, or even as a standalone plant for baskets and planters.

Trailing buxus for a trailing finish that looks at home on the panel, or adding an extra dimension to an indoor or outdoor display.
